Hi Agnes,

I converted the **Arial font** files from ttf **to** afm using

When used in R with the line recommended by Plo  
**However** I did not try (but hopefully will do soon) th

Here is a way **to** do it: (Mind the trick at step 5)

**Hi Agnes and Camille (and help-list),**

In Ubuntu 11.10 I needed **to** use su permissions **to**

le. after following the instructions by Agnes and Ca  
sudo cp **arial**\*.afm /usr/lib/R/library/grDevices/afm  
gzip /usr/lib/R/library/grDevices/afm/**arial**\*.afm

Then the postscript **toy** example in this thread work
